Forse of Nature is beautiful in any season.

spring sees a carpet of snowdrops, celandine, daffodils and bluebells, in summer the majestic copper beech glows deep purple, in autumn the canopy turns golds and browns, while winter may see frosty covered grass or sometimes snow.

Surrounded by 24 acres of historic woodland, with an acre of walled garden, expanses of soft lawns, fire-pit area and a mile long stretch of cascading river: there is great scope for a number of outdoor settings.

The 3/4 mile driveway follows the stream through a tunnel of trees to reveal the venue.

From the listed interior and exterior features to the 24 acre surrounding woodland, there is interest and beauty whichever way you turn.

The grand mansion faces the sea, with a tumbling burn to the side cascading over waterfalls through the woodland grounds.

The acre walled garden is an oasis of calm, with a beautiful wrought iron pergola covered in climbing roses and honeysuckle, perfect for a summer wedding outdoors, or if you prefer, make your vows by the stream under the woodland canopy or on one of the bridges over the stream.

If you would prefer your ceremony indoors, we can style rooms to your theme or scheme and have a number of accessories and decorations available to use.
